NOTICE OF INTERVENTION

Pursuant to paragraph (a)(2) of section 385.214 of Title 18 of the Code of Federal Regulations, the California Department of Fish and Wildlife ("CDFW") provides notice that it is a party in the proceeding before the Federal Energy Regulatory Commission ("FERC") on the Notice Of Application Accepted For Filing And Soliciting Motions To Intervene And Protests.

CDFW is the relevant state fish and wildlife agency for consultation pursuant to the Federal Power Act section 10(j). (16 U.S.C. section 803(j)).

The fish and wildlife resources of the State of California are held in trust for the people

of the State by and through CDFW (Fish & G. Code § 711.7). CDFW has jurisdiction over the conservation, protection, and management of fish, wildlife, native plants, and the habitat necessary for biologically sustainable populations of those species (Fish & G. Code § 1802). The mission of CDFW is to manage California's diverse fish, wildlife, and plant resources, and the habitats on which they depend, for their ecological values and for their use and enjoyment by the public. It is the goal of CDFW to preserve, protect, and as needed, to restore habitat necessary to support native fish, wildlife, and plant species within the FERC-designated boundaries of the Project, as well as the areas adjacent to the Project in which resources are affected by ongoing Project operations and maintenance activities and recreational use.
